Features and Benefits

- **Molecular-Accuracy without the wait** - Improve clinical outcomes by administering immediate treatment in just 30 mins.
- **Accessible molecular testing** - Breakthrough platform designed to eliminate cost-barriers
- **Reduce repeat testing** - No need for serial or confirmation testing*
- **Alleviates testing restrictions** - Indicated for symptomatic and asymptomatic testing allowing for screening prior to medical procedures, before/after travel or in work/school programs
- **Simple workflow** - Can be performed in any point-of-care setting
- **Convenient sampling** - The only test with dual-sample types (nasal swab or saliva) providing you with flexibility for the best patient experience
- **Exceptional Support** - Experienced support teams and online training modules to help streamline your testing implementation
